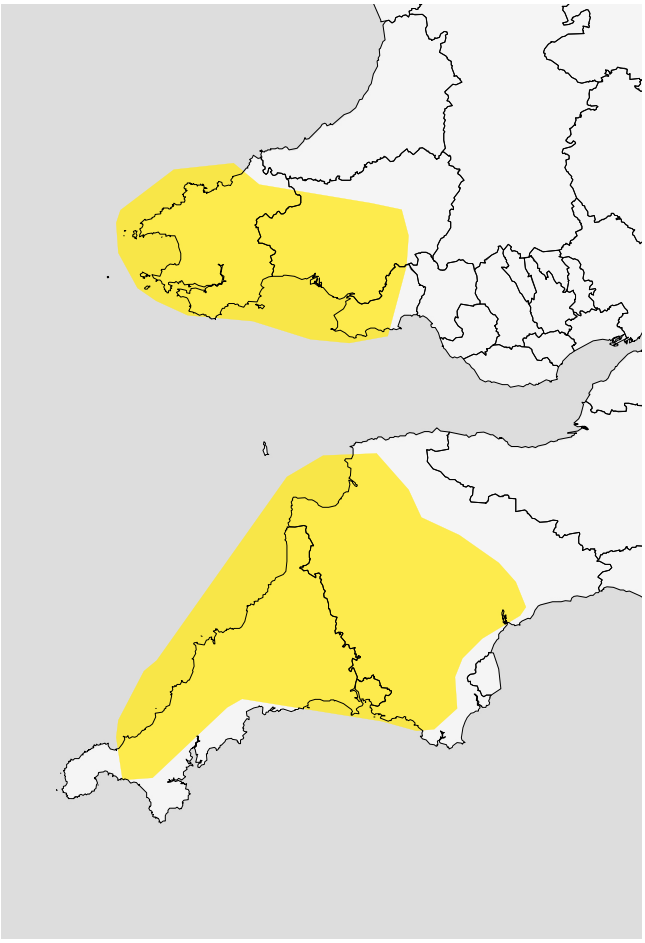
Yellow warning
Snow & Ice

Between
21:00 Thu 11 Feb 2021 and
11:00 Fri 12 Feb 2021



A combination of light rain, snow and icy patches could bring some disruption to travel during Thursday night and Friday morning.

What to expect

- Some roads and railways likely to be affected with longer journey times by road, bus and train services
- Some injuries from slips and falls on icy surfaces
- Probably some icy patches on some untreated roads, pavements and cycle paths

Further details

Outbreaks of rain and snow are likely to spread erratically east during Thursday night, bringing some small snow accumulations and icy patches, before conditions improve during Friday morning as temperatures rise and rain and snow eases.

Snow will fall inland, with accumulations of 1-3 cm in places, most likely over Dartmoor and Bodmin Moor. Rain is more likely in coastal areas and more generally across western Cornwall. Some places may remain largely dry, but where rain, sleet and snow falls onto frozen surfaces, icy stretches are likely to form.

Medium likelihood of low impacts

Issued at 11:12 Wed 10 Feb, 2021
